

VIRTUAL EVENT GUIDE 2020

BY THE ORGANISERS OF

3 UNIQUE EVENTS IN 1 DAY

INTRODUCING THE VIRTUAL EXPERIENCE!

This year we are breaking all boundaries and going fully virtual. A truly collaborative online experience to bring you three influential aviation conferences on one device!

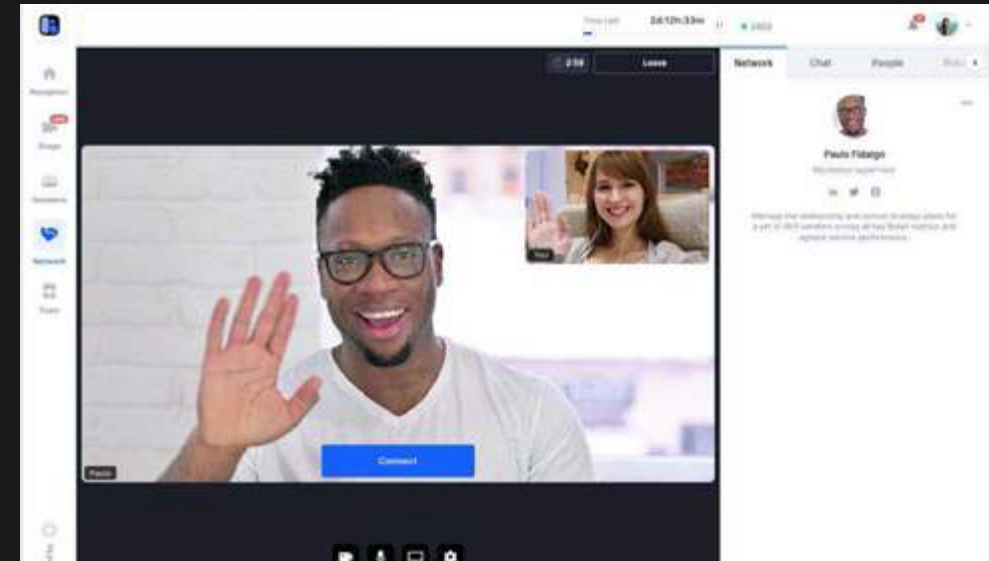

Leveraging from the Dubai Airshow network, the Global Air Traffic Management, Aviation Sustainability, and Cyber Security in Aviation Conferences will give you exclusive access to the genuine leaders in the industry.

This event guide will provide with an overview of all 3 events as well as a how to guide on how to maximise your experience using our virtual platform.

GOING VIRTUAL – HOW TO USE HOPIN

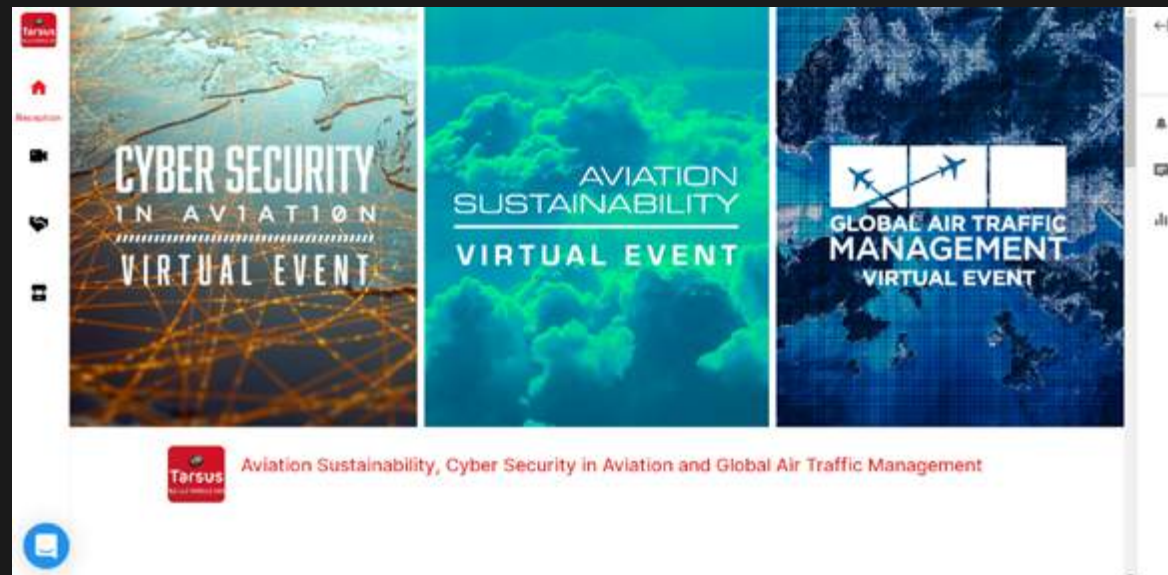

HOW WILL THE VIRTUAL EVENT WORK?

The event platform that we're using for our virtual events is called Hopin (www.hopin.to).

The virtual event will include three stage areas, live video and text based chat functions and an Expo area.

HOW TO ACCESS THE EVENT ON THE DAY

- Login to your Hopin account.
- Redeem your ticket by using the link you've received via email in the days before the event.
- Click on the Join event button.
- Once in the reception area you can then access the stages, networking and expo areas.

HOW TO PREPARE FOR THE VIRTUAL EVENT

SETTING UP YOUR DEVICE

RECOMMENDED BROWSER COMPUTER

- Hopin works best on the latest version of Google Chrome, which you can download here – www.google.com/chrome.

RECOMMENDED INTERNET CONNECTION

- For a great online experience the recommendation is a minimum of 5mbps download and 2mbps upload speed. Ideally would be 30mbps download and 10mbps upload or higher for guaranteeing best quality.

IMPORTANT TIP

- Make sure you only have one Hopin tab open as there could be feedback or sound looping otherwise.
- Add your favorite panel discussions and presentations in your diary so you don't miss any of the content.

For more, you can also check out [Hopin's FAQ](#). We're also available to help on the group chat during the event.

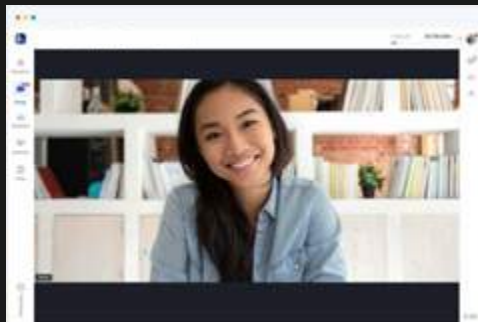

WHAT CAN I DO DURING THE VIRTUAL EVENT?

THREE EVENT STAGES

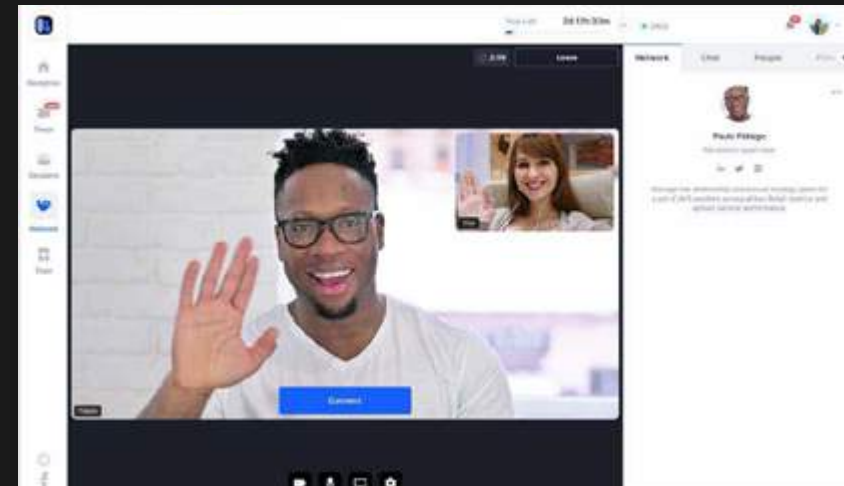

The event will have a separate stage per event. Simply click on the stage of interest to you in order to attend the sessions

- Tune in live from your computer.
- Connect and network with other attendees
- Live chat function to interact and ask questions
- Invite other attendees for a live video call
- All speaker sessions will be recorded

MEET THE SPEAKERS

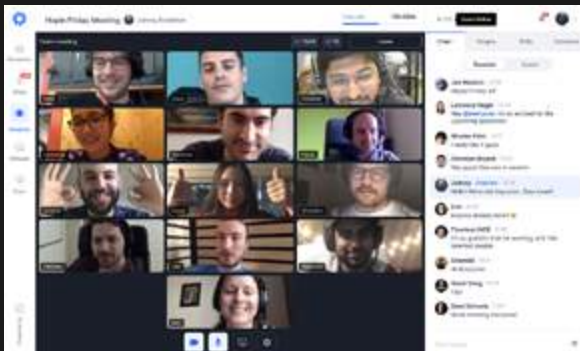

- Network with our speakers post their session
- Ask questions during the presentation through the chat functionality
- Invite speakers for 1 to 1 meetings through our networking functionality

WHAT CAN I DO DURING THE EVENT?

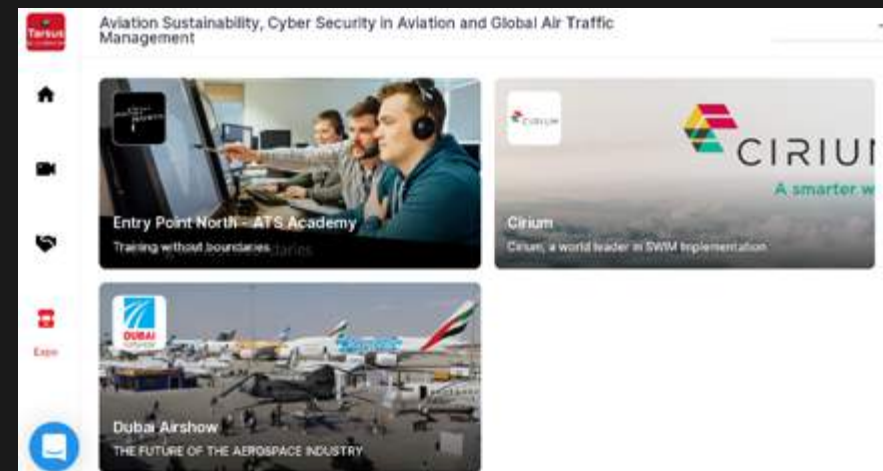

CONNECTIONS & NETWORKING

- Build your profile, link your social media accounts.
- Networking can be via live chat, as well as live video.
- Attendees from more than 100+ countries!
- Share your ideas and vision for the future.
- Discover new opportunities for collaboration.
- Make asks and offers.

THE EXPO ZONE

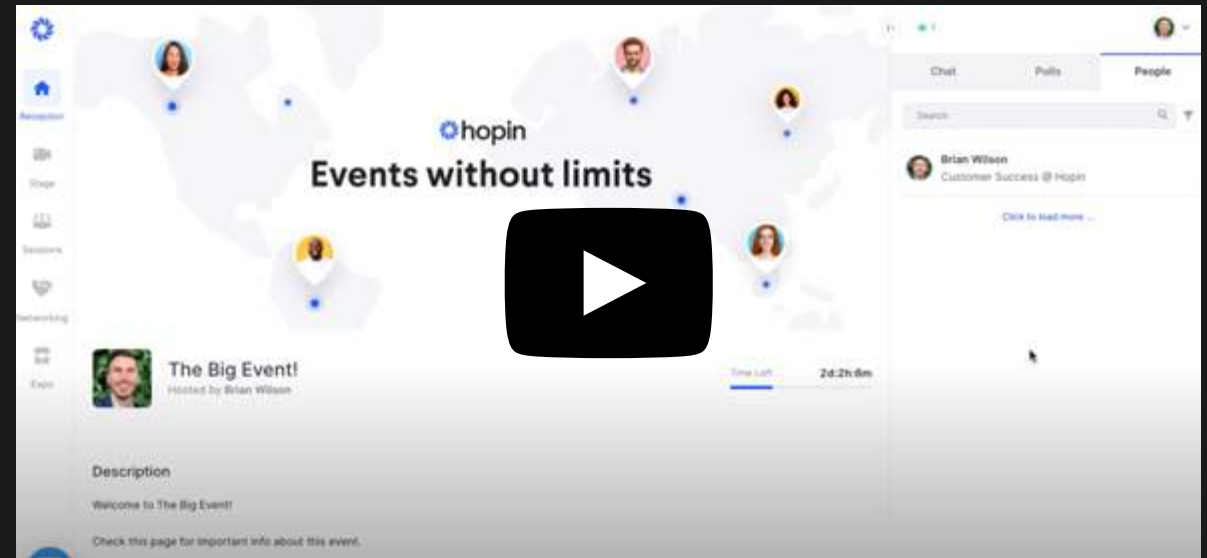

- Explore the Expo Zone at your leisure.
- Our vendors will have various products, services to request more information on.
- Features include live video and live chat options.

WATCH A VIDEO DEMO FROM HOPIN ON HOW IT WORKS...

YOUR PREPARATION CHECKLIST

- Make sure your computer has the latest version of Google Chrome
- Check that you have access to the recommended internet speed.
- Set-up your Hopin profile.
- Block out your work calendar for the day.
- Link your Hopin account to your social media accounts.
- Invite your contacts on LinkedIn and post about your experience.
- Follow the @DubaiAirshow channel on LinkedIn and Twitter for all the latest updates before/during and after the event.

GLOBAL AIR TRAFFIC MANAGEMENT VIRTUAL EVENT

OVERVIEW

Over the last 2 years GATM has built a strong engaged community representing ATCOs in the Middle East, North Africa and beyond. Tackling major issues such as capacity management, airport slots and A-CDM.

This year we have opened GATM to the virtual world, allowing us to welcome more international ANSPs, airlines and airports to our community, truly reconnecting the air traffic management industry.

Our online community will discuss the latest regulatory challenges, remote and digital trends improving safety, and technological disruptions enhancing efficiency.

Senior Communication - Navigation and Surveillance - **Egyptian Civil Aviation Authority**

Michael Dolbey

VP Air Traffic Services - **DANS**

AVIATION SUSTAINABILITY

VIRTUAL EVENT

OVERVIEW

Introducing the regions only fully virtual conference dedicated to growing the aviation industry with sustainability.

As planes return to the sky, and new post pandemic challenges arise, sustainability remains a key strategic priority for the aviation sector. Airlines, airports and governments are committed to their long-term sustainability goals and look forward to sustainability growing the industry.

The Aviation Sustainability virtual conference will uncover the technologies available to increase operational efficiency, reduce emissions and expedite research to help support the industry in a green recovery.

CYBER SECURITY IN AVIATION VIRTUAL EVENT

OVERVIEW

Join us as we unite stakeholders from aviation authorities to operators to share, innovate and connect at the region's only cyber security event dedicated to the aviation industry. The current COVID-19 Pandemic has already caused airlines to lose over US\$8 billion. Can you afford to lose any more due to a cyber breach you didn't see coming?

The Cyber Security in Aviation Conference will tackle the most pressing cyber security issues facing the aviation sector and society in the region. Driven by powerful use cases from regional leaders and cyber tech implementers, this conference will give you unmitigated access to the information and tools that will support in building cyber resilience within your organization.
